All of our products are designed and produced by ourselves. The products are sold with unique character and image design, including various styles, cute, futuristic, to meet the different tastes of consumers. In order to make the NFT more valuable, we will have 20% of the NFT project revenue set aside for the Crypto\_Stonnie brand building. We will advertise through different channels, organize events, co-operating with other famous brands, etc. to expanding brand influence. We will keep looking for partners in the future to attract more people knowing the Crypto\_Stonnies. In besides, 20% of the profits from the online store will be used for product development and research, and another 30% will be used to grow the Crypto\_Stonnie community, such as organizing different events, raffles, etc. Last but not least, every NFT holder will be able to enjoy special discounts on Crypto\_Stonnies products and the privilege to purchase limited items.
